Description

In Brief	Grain de Glace is the only rose from Provence, created specifically for winter consumption. By law, in Provence producers cannot offer a rose from the current vintage until January 1 st of the next year but there is ONE ROSE which is an exception and is here with us on December 1 - a real winter fairy tale in pink! Every year the picture on the bottle of this rose changes and reminds us of winter. Grain de Glace is the winter rose!
